

Brain Hacking Presentation
(not to be confused with Chicken, chicken
chicken ...chicken) ¹

@SteveClement

November 8, 2015

¹<https://isotropic.org/papers/chicken.pdf>

whoami

steve, hacker, fool, psychonaut, Mensch

Psychonaut quo vadis?

In a nutshell: A person navigating his own psyche with different stimuli, IMHO aka. Brain Hacker

What is Brain Hacking according to Google?

Googling for Brain Hacking gives 3 interesting top matches:

1. Mind Hacks
2. Neurohacking
3. Mind Performance Hacks

All three on Wikipedia

Brain Hacking will henceforth be referred to as BH

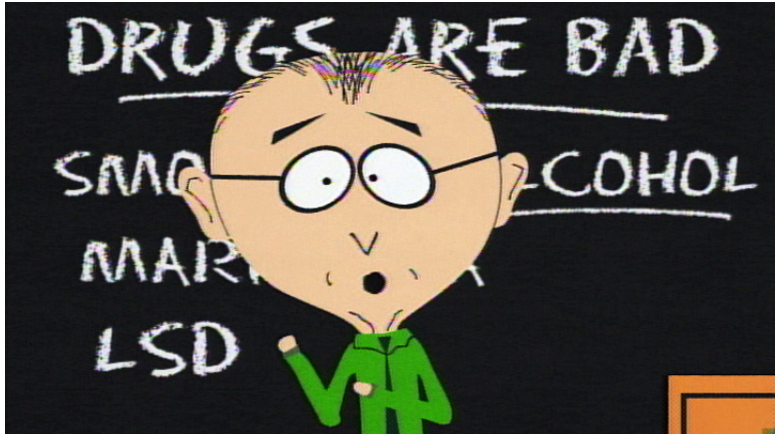

What is Brain Hacking?

Neurohacking is the colloquial term for (usually personal or "DIY") neuroengineering. It is a form of biohacking (qv) focusing on the brain and CNS. Strictly speaking it is any method of manipulating or interfering with the structure and/or function of neurons for improvement or repair. Henceforth referred to as BH

What is BH in RL?

Drugs are bad Mokay?

Drugs are bad according to the state and media?

Changing paradigm ...finally the war on drugs is being seen what it really is and was (a big fuck-off shout-out to the Nixon administration)

Media disinformation

^{THE}Sun

Legal drug teen ripped his scrotum off

Media Political spectrum

Why o' Why?

Drugs are not that bad according to the state and media!

Changing paradigm ...finally, everything is a drug not everything is a bad drug.

How?

How?

```
1  #!/usr/bin/env python3
2  import numpy as np
3  import nibabel as nib
4  import matplotlib as mpl
5  import matplotlib.pyplot as plt
6  img = nib.load('./data/run1.nii.gz')
```

Demo with lea and the actual generator

Goo does not play dice

(Anarcho Syndicalism, Google it and become an atheist nihilist)

SO sorry...

I broke some laws, mostly copyright laws.

Credit where credit is due, all my sources are amazing people.

Thanks.

Thanks for the fish and do not believe the hype
