#### Vorsicht: hochdosierte XTC's

#### Datum: August & September 2014

Name	Bentley	Bentley	Pinke Pyramide
Gewicht	258.0 mg	299.8 mg	284.2 mg
Durchmesser	8.3 mm	8.5 mm	8.0 mm
Dicke	4.6 mm	5.5 mm	6.0 mm
Bruchrille	Nein	Nein	Nein
Farbe	Orange-rot mit Sprenkeln	Violett mit Sprenkeln	Pink mit Sprenkeln
Inhaltsstoffe	MDMA*HCI: 123.0 mg	MDMA*HCI: 163.8 mg	MDMA*HCI: 122.9 mg
Bernerkung	Bentley-Flügel auf der Rückseite	Bentley-Flügel auf der Rückseite	Pyramidenform
Getestet in	Zürich, August 2014	Bern, September 2014	Zürich, September 2014

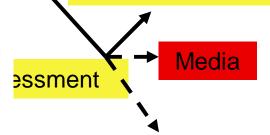

#### Risikoeinschätzung

Über 120 mg MDMA"HCI können zu viel sein. Nebenwirkungen wie "Kiefer mahlen", Augen- und Nervenzucken, bis hin zu Krampfanfällen können auftreten. Bei Überdosierungen steigt die Körpertemperatur stärker an, und es können Halluzinationen auftreten. An Folgetagen, nach der Einnahme solch hoher Dosen MDMA, treten vermehrt Depressionen, Konzentratin schwächen, Schlafstörungen und Appetitlosigkeit auf. Die regelmässige Einnahme grosser Mengen MDMA ist neurotoxisch und vergrössert die Wahrscheinlichkeit irreparabler Himschäden.

### Safer Dance Switzerland

Safer Dance Switzerland is an association, member are nightlifeprevention institutions or individual experts.

#### The aims are:

- developing a modular offer (DC, Psychedelic Ambulance, Chill-Out),
   with staff members (peers and pro.) from all three Swiss regions
- providing nightlife prevention at big festivals with a national crowd or in region/cities where not so a kind of offer exists
- empowering local prevention institution to settle up new offers
- working together with nightlife stakeholder on a safer clubbing principal

### **Safer Dance at festivals**

# Safer Nightlife Switzerland

Safer Nightlife Switzerland is a multidisciplinary national competence centre for nightlife issues.

### The aims are:

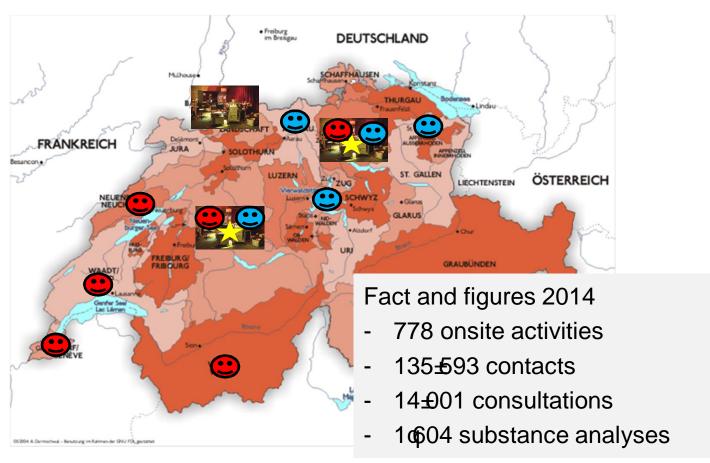

- supporting nightlife prevention offers in Switzerland
- developing and implementing action-plans on specific issues
- network between science, prevention, harm reduction, policy and repression
- know-how exchange, training and conferences for nightlife stakeholders

### Conclusion

# Nightlife prevention activities 2014

# Nightlife prevention is effective

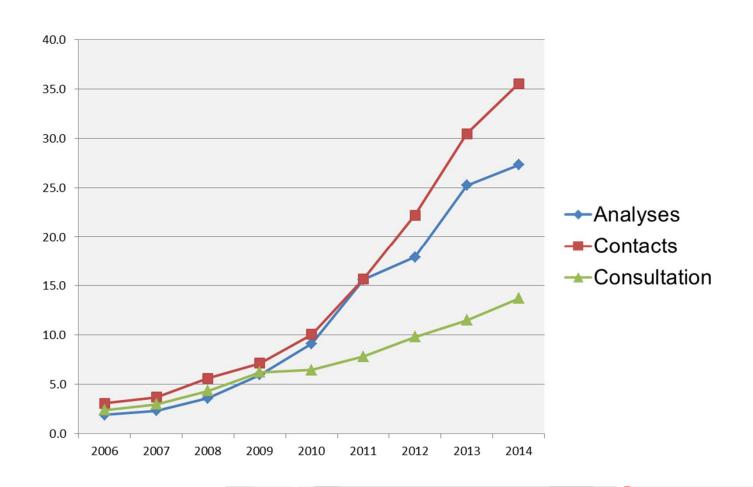

- Be present with an attractive offer in the lifeworld of recreation drug users helps to attract this target group and gives us a unique monitoring possibility.
- Personal support, information, short advices, harm reduction strategy's and Drug Checking offers creates risk awareness among recreation drug users.
